Futures Price Trend

Market Analysis

NYBOT coffee futures closed higher but well off the session high on Tuesday. Fresh speculative buying interest was featured amid some hurricane developments in the Caribbean region. However, scale-up trade selling pared gains late. December coffee closed up 210 points at 117.95 cents. Higher London coffee futures prices also supported buying interest in New York. Liffe robusta futures hit a fresh three-week high Tuesday, reflecting a tightness in supplies leading up to the Vietnamese harvest. LIFFE September and November settled up \$13 each at \$1733 and \$1788/tonne respectively.

Global: Hurricane Felix is reported to head toward coffee-producing countries of Honduras and Nicaragua. Officials on Tuesday forecast a more active final three months of the Atlantic hurricane season, which ends at the end of November.
